### STATEMENT:

I am honored to once again have the opportunity and privilege to serve my district and all the people of the great state of Alaska in the State Legislature. As a fourth generation Alaskan, I feel a responsibility to address and solve the issues facing this state. The legislature must address the critical social and economic issues facing this state soon. I pledge to work in a bi-partisan effort toward that goal for the benefit of all Alaskans. A stable economy means good jobs with good wages and benefits. A Stable economy means good quality schools with well paid teachers and a disciplined system of achievement. Alaska will always be a natural resource state and the legislature must assure development of its oil and gas, timber, mining, agriculture, and other resources in an environmentally sound and responsible way. I ask for your support and vote on Election Day.
